

# District of Port Edward

Clean, Neat & Green

October 7, 2015

Dean Patry, President  
Prince Rupert Gas Transmission Project  
760 Kinsmen Place  
Prince George, BC V2M 0A8

**RE: Letter of Support – TransCanada’s Prince Rupert Gas Transmission**

The District of Port Edward Council supports our business community, together as we move forward as the Host Location for Pacific Northwest LNG Liquefaction Facility. TransCanada Prince Rupert Gas (TRGT) Transmission plays an important role on the development of this project.

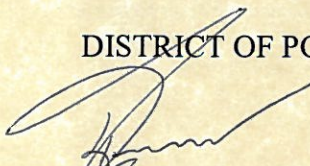

We understand that PRGT has received its Environmental Assessment Certificate from the BC Environmental Assessment Office in late 2014, and is working with the BC Oil and Gas Commission to secure the necessary permits for construction.

We believe that PRGT has demonstrated commitment to meaningful engagement with the District of Port Edward and the surrounding area, through project updates to Council on a regular basis, and invitations to community members to attend open houses to learn more about the project and its benefits and provide input to our project team.

We are pleased to have embarked upon a positive and professional working relationship with TransCanada Prince Rupert Gas Transmission to date, and we look forward to our future working relationship.

Yours truly,

DISTRICT OF PORT EDWARD
